

# SPINTECH IV

Preliminary Announcement

## FOURTH INTERNATIONAL SCHOOL AND CONFERENCE ON SPINTRONICS AND QUANTUM INFORMATION TECHNOLOGY

**JUNE 17-23, 2007  
WAILEA MARRIOTT, MAUI, HAWAII**

Spintech IV will highlight fundamental physical phenomena related to spin-dependent effects in semiconductors and advances in the development of new semiconductor spintronic materials and devices. The school will take place during the first half of the week to orient students to this emerging field, and will be followed by a conference aimed at stimulating progress in the fabrication, measurement, and theory of semiconductor spintronic systems.

### CONFERENCE CHAIRS

David Awschalom (University of California, Santa Barbara)  
Stuart Wolf (University of Virginia)

### ORGANIZING COMMITTEE

Gerhard Abstreiter (Walter Schottky Institute)	Daniel Loss (University of Basel)
Gerrit Bauer (Technical University, Delft)	Hideo Ohno (Tohoku University)
Robert Buhrman (Cornell University)	Emmanuel Rashba (Harvard University)
Paul Crowell (University of Minnesota)	Nitin Samarth (Pennsylvania State University)
Tomasz Dietl (Polish Academy of Sciences)	Seigo Tarucha (University of Tokyo)
Michael Flatté (University of Iowa)	Stephan von Molnar (Florida State University)
Leo Kouwenhoven (Technical University, Delft)
